

## Over Angels

I will stick it on my brain  
Will stick it on my veins  
Will stick it on my nails  
Will stick it today  
I will stick it well

I will stick it on my head  
Will stick it on my bed  
Will stick it on my chair  
Won't stick it in vein  
I will stick it here  
I won't stick it there  
I will stick it here

I will stick it on my eyes  
Will stick it on my glass  
Will stick it on my knife  
Will stick it tonight  
It makes me feel alright

I will stick it on my folder  
Will stick it on my shoulders  
Stick it on my coat  
Will stick it with glue  
It came out of the blue  
So I'll stick it with glue  
As it came out of the blue

I don't want to miss this feeling

So I will stick it on my thoughts  
Will stick it on my soul  
Will stick it on windows  
Will stick it on my wall  
Will stick it on my wings  
Will stick it on my will  
Will stick it on my hair  
Will stick in on my heels

Will stick it on heaven  
Will stick it over angels  
Stick it forever  
And stick it on the trees  
Will stick it on footsteps  
Will stick it on my feet  
Will stick it on my heart  
Will stick it on my dreams
